

## MANE Pre-Practicum (Clinical) Requirements

To be able to participate in clinical experiences, students must submit documentation of the following:

1. Documentation of HIPAA training.
2. Current CPR certification at Healthcare Provider level - *must be AHA, Red Cross or equivalent with a skills component.*
3. A Department of Human Services (DHS) background study that includes fingerprinting and a government photo ID.
4. Immunization Requirements:

### Tuberculosis Screening

Documentation of ONE of the following within the past 12 months:

**1. Two-step tuberculin skin test (TST)**

-Students who have had a negative TST within the last 12 months need one additional TST, this will constitute the two-step TST.

-Students who have not had a TST in the past 12 months will need a full two-step TST.

**2. QuantiFERON blood (QFT) test**

Commented [FU1]: Revise wording

**3. T-Spot blood test**

Commented [FU2]: Add this to the list

**4. Single TST with record of previous baseline TB screening (two-step TST or QFT) and record of annual screening every year since the baseline screening.**

-If your Tuberculosis test is positive, you also need to provide signed documentation from a clinic of one subsequent negative chest x-ray AND negative **annual** symptom survey since your chest x-ray.

### Mumps Immunity

All students must have ONE of the following:

- Two doses of Mumps vaccine after 12 months of age
- Mumps titer indicating immunity

### Rubeola (Red Measles) Immunity

All students must have ONE of the following:

- Two doses of Rubeola vaccine after 12 months of age
- Rubeola titer indicating immunity

### Rubella (German Measles) Immunity

All students must have ONE of the following:

- Two doses of Rubella vaccine after 12 months of age
- Rubella titer indicating immunity

### Hepatitis B Immunity

All students must have completed the series of 3 vaccinations or have a Hepatitis B titer indicating immunity, OR have a signed Hepatitis B (HBV) Vaccine Waiver Form on file with the School of Nursing.

### Tetanus Diphtheria/Tdap (Adult Type)

All students must have had a tetanus vaccination/booster within the past 10 years

### Varicella (chicken pox) Immunity

All students must have ONE of the following:

- Had chicken pox
- Two doses of Varicella vaccine
- Varicella titer indicating immunity

**Seasonal Influenza Vaccine**

All students must have a seasonal flu vaccination or documentation of a medical contradiction or allergy as to why they cannot receive it.
